

**Game-changing workflow insights
for businesses of any size.**

Our Locations

The Problem

From cradle to crib, a typical office worker spends around **80,000 hours at work.**

Around **two thirds** of that time is **wasted...**

... which costs the U.S. economy approx.
USD 8.8 billion per day.

...and leaves office workers unhappy, unhealthy and unproductive.

Our Solution

AllActivity is a software tool that enables users in all industries to save **several hours** of their time per day.

PERIOD	2022-06-04	2022-06-05	2022-06-06	2022-06-07
Total Time	13:46 mins	24:14 hrs	2:47 hrs	11:58 hrs
Work Time	-	-	8:59 mins	2:58 mins
Break Time	-	-	-	1:27 mins
First Activity	10.01 AM	07.37 AM	01.50 AM	06.24 AM
Last Activity	08.35 PM	08.41 AM	11.54 PM	05.36 AM
Over time	13:4

Rollout & Growth Plan

Job Opening React Full-stack Developer

Do you enjoy coding?

We are looking for full-stack React developers of all seniority levels with a responsible work ethic and a desire to write polished, production-ready software.

Develop and feel welcome in a rewarding long-term position as part of a small, productive team that is currently polishing our flagship product in a pre-release stage.

We offer a healthy, inclusive and respectful work environment, as well as flexible working conditions.

The stack:

- React
- Node.js
- Docker
- Sequelize ORM
- Postgres (Aurora v2)
- GraphQL & Apollo
- HTML5, CSS

Job Opening QA specialist

Do you have an eye for detail and readily notice imperfections?

We are looking for people whose bread and butter it is to dissect our applications and work closely with the development team to polish the features to maturity.

You will be using our applications in free form, or according to test scenarios and particular development topics, to make sure that everything is functioning well.

We offer a healthy, inclusive and respectful work environment, as well as flexible working conditions.

The toolkit:

- All the major browsers
- GitHub
- Slack
- Selenium
